

### **Reflection on Class 1 Session 1: Introduction to the Course**

After watching the video: Introduction to the class, I had a better idea on what the class is going to be about. I always thought Distance Education and Distance Learning were the same. But the video clearly explains that they are not. Distance Learning is part of Distance Education since Distance Learning also includes Distance Teaching. The professor explained in the video the course objectives and the course schedule which can also be found in the course syllabus. The idea of learning how to create a website increases my enthusiasm for this class. I have never done it before and learning how to do it will be the best challenge I believe I am going to have this semester.
